### *June 1-11 approximately \$1,500 land price*

There is a magic that lingers over the valleys and mountains of Peru. It has been felt by and written about by many individuals. Much of what I feel is hard to explain, but there is something undeniably strong that beckoned me to experience this for myself. The love and energy resonates throughout the land and permeates every soul reminding us we are all connected. I left enriched by the gifts I received of life's simplicities and a fullness of one spirit touching another. I experienced a remembrance and a profound reverence for "Pachamama" our Mother Earth and the abundance she provides. The beautiful people of Peru eagerly shared their ancient culture, their wisdom and the beauty of the lands. I chose to be in the travel industry because I am passionate about connecting individuals with places they are drawn to. The future of our planet depends on our ability to connect as one people all around the world and the time is now.
